to Joe, me, Mick, PB, Roger, Steve

Brothers what has happened over the past two weeks can not be changed, it is now history. What is left to do is move forward we can not dwell on the past, and we have already lost enough precious time. We now have less than eleven months to complete the game plan we have laid out for the year. I ask you all to ignore the ignorance of those who have no intentions of actually moving us forward. We will reach out to those who would like to see the Fraternity succeed. We will be the bigger men realizing that the armchair quarterbacks have no desire to do the actual work that needs to be done. I made the decisions and the plays which got us into this mess and it is my problem. I want you all to do what we decided on. We must complete the ten year goals plan. I have a rough draft, and it is just that, my attention will be on finishing that draft to send to you so we can finalize it on Sunday evening. Please start thinking of replacement officers, that is now and agenda item. If people give you a hard time direct them to me. Please do not fall into the Facebook trap. Please do not fall into any of Darren's traps, he is playing games, and has already wasted enough of everyone's time and energy.

Thank you,
Pat
